PRECAUTIONARY STATEMENTS:

CAUTION: Avoid getting in eyes. Avoid breathing spray mists. This product is made from plant oils; some individuals may be sensitive to the fragrance.

FIRST AID: If In Eyes: Wash with water. Consult your physician if irritation persists. **If Inhaled:** Seek fresh air. **If Swallowed:** Rinse mouth out with water. Do not induce vomiting. Obtain medical attention.

This product has not been registered by the US EPA. Green Light Company represents that this product qualifies for exemption from registration under FIFRA.

SHAKE WELL BEFORE USING

DIRECTIONS FOR USE: Read Entire Label. Use Strictly In Accordance With Label.

CedarCide® YardSafe Insect Repellent cedar oil based solution can be used to safely repel chiggers, fleas, flies, gnats, mosquitoes, no see-ums, and other insects from your yard, patio, gardens, stables, and other areas where insects harbor or congregate. Safe to use on animals and vegetable gardens. **CedarCide® YardSafe Insect Repellent** will leave no toxic pesticide residue; therefore, it will enhance microbial activity in soils establishing healthy plant life. Repelling the egg layer insect and its offspring will eliminate further generations of insects. Use as often as necessary or required for a satisfactory insect-free comfort level. Attaches to standard garden hose. Avoid applications to vegetation in sunny areas when temperatures are above 85°F. Treats up to 4,000 sq. ft. Not effective until dry.

READY-TO-SPRAY DIRECTIONS FOR OUTDOOR USE ONLY: The sprayer attached to the container is ready-to-use. Simply attach to your garden hose and follow these simple instructions.

- 1) Insure the large, round, "on/off" knob is set to OFF.
- 2) Turn on water.
- 3) Rotate the small, star-shaped product control knob to align the flat portion of the knob with the vertical portion of the lock tab and PUSH IN the knob to open. This allows product to mix with water.
- 4) Hold sprayer and container level and point towards area to be sprayed.
- 5) Turn large, round, "on/off" knob forward (away from you) to ON.
- 6) Begin spraying product evenly over area you wish to treat.
- 7) To stop spraying, turn large, round, "on/off" knob backward (toward you) to OFF.
- 8) PULL OUT and rotate the small, star-shaped product control knob. This prevents product from mixing with water.

- 9) Turn off water at the faucet. Relieve water pressure in the hose by turning large, round, "on/off" knob to ON until water pressure is reduced.
- 10) Turn the knob to OFF for storage of unused product and/or disposal of empty container.

STORAGE AND DISPOSAL: **Storage:** As with any household chemical product, keep out of reach of children and animals. Keep from freezing (store above 32°F). **Disposal:** Do not reuse container. Securely wrap empty container in newspaper and discard in trash.

LIMITATION OF LIABILITY: Green Light Company warrants that this material conforms to the chemical description on the label and is reasonably fit for use as directed thereon.
